PREPAREDNESS
BY THE CIVIC LEAGUE OF PICKENS

DO YOU believe in preparedness? As Billy Sunday says, "We do, and with a big P." For at this time, when all the world is agog with this talk, cannot we in Pickens take up our share of the work?
With the approach of the spring season our minds turn to the thoughts of preparedness for it. The farmers are busy in their efforts to prepare the soil for the crops to be sown; the merchants are buying their stocks of goods; the young women are thinking of Easter clothes; the boys and girls preparing for their graduation.
Can we not prepare the town of Pickens for her summer dress, and by a little forethought and care prevent the appearance of, typhoid fever and other diseases incident to the neglect of existing conditions?
Our town is a beautiful one, nestling in the foothills. God has made it so, but what have we done to cultivate and enhance its beauty? Our streets are filled with the refuse of the business houses; the vacant lots are allowed to grow up in weeds and used as dumping grounds for the cast-off plunder of our households. The garbage wagon is supposed to remove all such, but its rounds can be traced by the trash it drops as it slowly winds its way through the streets. Our church lot has been sodded, but the children have taken its slopes for a toboggan slide, and the busy man uses it for a short cut. And what of our courthouse square—filled with machinery not in use, unprotected from the weather, altho hundreds of dollars have been spent to purchase it; an old grandstand used on prohibition day, dilapidated and unnecessary; while in summer the square is used as a public garage and in winter as a coal and wood yard. A circuit judge who recently held a term of court here remarked that the courthouse grounds were the worst kept in the state.

Now, let's all pull together and help existing evils. Clean up—and keep cleaned up all during the year! Burn our trash—don't let it blow in our neighbors' yards. Use the sidewalk—don't use short cuts across unused lots. Get ahead of the flies and prevent the spread of disease. Then, when we have gotten thoroughly cleaned up and prepared, beautify and help to keep our town what Nature has already made, the most beautiful one in South Carolina.
